

ARE WE FINALLY READY?

Professor David L. Heymann

Medical Epidemiologist and Professor of Infectious Disease Epidemiology, London School of Hygiene and Tropical Medicine

David Heymann is a medical epidemiologist and Professor of Infectious Disease Epidemiology at LSHTM. From 1989 to 2009 he held various leadership positions in infectious diseases at WHO, and in 2003 headed the WHO global response to SARS in his role as executive director of communicable diseases. In 1976, after spending two years working in India on smallpox eradication, Heymann was a member of the CDC (Atlanta) team to investigate the first Ebola outbreak in DRC and stayed on in sub-Saharan Africa for 13 years in various field research positions on Ebola, monkeypox,

Lassa Fever, malaria and other tropical diseases. Heymann has published over 250 peer reviewed articles and book chapters, is editor of the Control of Communicable Diseases Manual, and is an elected member of the UK Academy of Medical Sciences and the US National Academy of Medicine.

Professor David Freedman

David O. Freedman, MD, FASTMH, FIDSA, FISTM—Founding Director, Travelers' Health Clinic; Professor Emeritus of Infectious Diseases, University of Alabama at Birmingham; Founding Director, Gorgas Course in Clinical Tropical Medicine, Lima, Peru; Past President, Clinical Group, American Society of Tropical Medicine and Hygiene (ASTMH); Co-Editor, Textbook of Travel Medicine Editions 1-3; Associate Editor, Emerging Infectious Diseases Journal; Section Editor, Journal of Travel Medicine. Dr. Freedman currently serves as Managing Senior Director, Shoreland Travax.

He was Secretary-Treasurer of the International Society of Travel Medicine (ISTM) from 2005-13. During the 2016 Zika epidemic he served as one of 12 members of the World Health Organization International Health Regulations

(IHR) Emergency Committee on Zika.

From 1995-2000 he served as Chair of the Expert Committee on Antiparasitic Drugs for the US Pharmacopeia. For 18 years until 2013 he was Director of the global GeoSentinel Surveillance Network which he co-founded and which currently maintains the largest database of ill travelers available.
